

JACK SHAW

Extracting Real Value from Artificial Intelligence

How Integrating AI with Blockchain, IoT and Other Meerging Technologies will Change Our Lives and Our World

AI is already transforming business, society, and the world, but so far it has only scratched the surface. As we move from self-driving vehicles to self-optimizing systems to self-configuring business landscapes, we'll see changes that dwarf what we've experienced to date. Jack shares real-world examples and company wins revealing how cutting-edge businesses' AI implementations will reduce costs, improve service, and spark innovation.

Jack can custom craft this presentation end user organizations In multiple Industries or for technology solution providers. And, his programs can be delivered in-house to employees or to clients and prospects at customer conferences and marketing events.

As General Manager of Commercial Systems for an advanced Artificial Intelligence company, Jack oversaw the design and development of leading edge AI applications for Industries as diverse as Energy, Petroleum, Healthcare, Manufacturing, Defense, Transportation, and Logistics.

Jack Shaw is a global thought leader and emerging technology strategist with over 30 years of experience in gauging the significance of emerging technologies for business. He was voted one of the top five Technology Futurists in the world in a poll conducted by Speaking.com. Jack keeps a pulse on shifts in technology, providing him the foresight to help industry leaders understand how emerging technologies impact their digital ecosystem -and how these technologies are practically applied both today and tomorrow. From small and mid-sized businesses to such Fortune 500 organizations as Mercedes Benz USA, GE, Coca-Cola, IBM, Oracle, and SAP, he has advised executives informing them regarding critical business needs. Jack has delivered over 1,000 keynote discussions and executive forums in 26 countries and every state across the U.S.
