

JACK SHAW

GLOBAL THOUGHT LEADER

OPENING MINDS TO WHAT'S NEXT

Jack Shaw is an emerging technologies strategist with more than 30 years of experience informing leaders on how to shape the digital ecosystem of their business amid new waves of technology. Voted one of the top 25 Speakers in the world and one of the Top Five Technology Futurists in polls conducted by Speaking.com, Jack Shaw has shared his insights and advice with nearly 300,000 of the world's top leaders and professionals.

Having a sensible and practical approach to how tomorrow's new technologies will impact corporate business models and processes, Jack has advised key decision-makers at such Fortune 500 organizations as Mercedes Benz USA, GE, Coca-Cola, IBM, Oracle, and SAP.

Jack is well-versed to speak on other progressive topics including Digital Transformation; eCommerce, Mobile Commerce, and OmniCommerce; eProcurement and Supply Chain Management; and the Future of Manufacturing and Distribution.

Jack has delivered over 1,000 keynote discussions and executive forums in 26 countries and every state across the U.S. He is a Yale University graduate and holds a Kellogg MBA degree specializing in Finance and Marketing.

"Jack's presentation was very well received by the customers and prospects.

Thanks for knocking it out of the ballpark!"

-Karen Sage, CMO, MercuryGate International

"Jack's seminar was instrumental in six clients signing up for major upgrades in the following 60 days."

-Carl M. Mix, President, Application Results, Inc.

He is highly-regarded for his expertise in emerging technologies impacting businesses, including:

Blockchain
Artificial Intelligence
Data Analytics
Internet of Things
3D Printing

KEY TOPICS

THE BLOCKCHAIN TRANSFORMATION

How blockchain-enabled digital transformation will evolve your business, your industry, and the world.

EXTRACTING REAL VALUE FROM AI

AI is transforming business, society, and the world, but it has only scratched the surface. Jack shares real-world examples of how cutting-edge businesses' AI implementations reduce costs, improve service, and spark innovation.

IoT IS THE FUTURE OF EVERYTHING

From connected cars to smart cities, the Internet of Things has a life of its own beyond computers and standard mobile devices. As IoT transforms, is your business fine-tuned to truly use this technology effectively?

3D PRINTING: REVOLUTIONIZING INDUSTRY

As the newest, most powerful manufacturing technique, 3D printing is driving the next industrial revolution. Explore its role in the digital economy and where it is headed across society as a whole in the next decade of digital transformation.
