

JACK SHAW

Extracting Real Value from Artificial Intelligence

How Integrating AI with Blockchain, IoT, and Other Emerging Technologies will Drive Disruptive Change and Enable Innovation in Our Lives and Our World

AI is already transforming business, society, and the world, but so far it has only scratched the surface. As we move from self-driving vehicles to self-optimizing systems to self-configuring business landscapes, we'll see changes that dwarf what we've experienced to date. Jack shares real-world examples and company wins revealing how cutting-edge businesses' AI implementations will reduce costs, improve service, and spark innovation.

Jack will customize this program for specific industry verticals or business functions on request. Examples include:

Extracting Real Value from Artificial Intelligence in Logistics and Supply Chain Management
Extracting Real Value from Artificial Intelligence in Manufacturing and Distribution
Extracting Real Value from Artificial Intelligence in Accounting and Auditing

Jack can also custom craft this presentation for technology solution providers and professional services organizations such as CPA and law firms. These customized programs can be delivered in-house to employees or to clients and prospects at customer conferences and marketing events.

As General Manager of Commercial Systems for an advanced Artificial Intelligence company, Jack oversaw the design and development of leading edge AI applications for industries as diverse as Energy, Petroleum, Healthcare, Manufacturing, Defense, Transportation, and Logistics.

Jack integrates his executive experience in Industry, technology, and consulting to speak on Innovation, Change Management, and Transformational Leadership. And, he brings decades of experience designing, developing, and implementing emerging technologies to speak with a deep understanding of how AI, combined with such other leading-edge technologies as Blockchain and the Internet of Things will impact business and society.

Jack Shaw is an Innovation and Change Management Strategist with more than 30 years' experience helping leaders transform their organizations' digital ecosystems amid new waves of technology. A Global Thought Leader, he was voted one of the World's Top 25 Speakers and one of the Top Five Technology Futurists in polls conducted by Speaking.com.

Having a sensible, practical approach to how tomorrow's new technologies will drive change and spur innovation, Jack has advised key decision-makers at such Fortune 500 organizations as Mercedes Benz, GE, Coca-Cola, IBM, Bosch, Oracle, and SAP.

Jack has delivered over 1,000 keynote discussions and executive forums in 26 countries and every state across the U.S. He is a Yale University graduate, and he holds a Kellogg MBA degree specializing in Finance and Marketing.
