

JACK SHAW

Innovation, Technology, and the Future

Major, game-changing technologies used to come along about once a decade, and one at a time. Now they come every year or two, and they come in bunches! Currently, Artificial Intelligence (AI), Blockchain, 5G Wireless, Internet of Things (IoT), Augmented / Virtual Reality, and 3D Printing are each driving accelerated rates of changes. Combined, their synergies are making change go exponential.

The only way for organizations to survive these exponential changes is through radical innovation. And fortunately, the same technologies that are driving these changes are enabling innovation.

In this presentation, Jack Shaw will describe how organizations can most effectively visualize, plan and execute on the radical innovations needed to change from responding to change to initiating it, and turn a future of threats into a future of opportunities!

Jack will customize this program for specific industry verticals or business functions on request. Examples include:

Innovation, Technology, and the Future of Healthcare

Innovation, Technology, and the Future of Accounting and Auditing

Innovation, Technology, and the Future of Logistics and Supply Chain Management

Jack can also custom craft this presentation for technology solution providers and professional services organizations such as CPA and law firms. These customized programs can be delivered in-house to employees or to clients and prospects at customer conferences and marketing events.

Jack integrates his executive experience in Industry, technology, and consulting to speak on Innovation, Change Management, and Transformational Leadership. And, he brings decades of experience designing, developing, and implementing emerging technologies to speak with a deep understanding of such current leading-edge technologies as Artificial Intelligence, Blockchain, 5G, and the Internet of Things and how these will impact business and society.

Jack Shaw is an Innovation and Change Management Strategist with more than 30 years' experience helping leaders transform their organizations' digital ecosystems amid new waves of technology. A Global Thought Leader, he was voted one of the World's Top 25 Speakers and one of the Top Five Technology Futurists in polls conducted by Speaking.com.

Having a sensible, practical approach to how tomorrow's new technologies will drive change and spur innovation, Jack has advised key decision-makers at such Fortune 500 organizations as Mercedes Benz, GE, Coca-Cola, Bosch, Johnson & Johnson, IBM, Oracle, and SAP.

Jack has delivered over 1,000 keynote discussions and executive forums in 26 countries and every state across the U.S. He is a Yale University graduate, and he holds a Kellogg MBA degree specializing in Finance and Marketing.
