

Creating Disruptive Change and Enabling Spectacular Innovation Across Business, Industry, and Society

As the newest, most powerful manufacturing technique, 3D printing is driving the next industrial revolution. It's creating disruptive change, but it's also enabling remarkable innovations.

And, when integrated with other emerging technologies, it makes a huge economic impact – and not just on manufacturers. Explore its role in the digital economy and where it is headed across society as a whole in the next decade of digital transformation.

In this program, Jack describes not only what 3D Printing is and how it's being used, he shows how your organization can implement a strategy to take advantage of how 3D Printing will affect your Industry.

Jack will customize this program for specific industry verticals or business functions on request. Examples include:

3D Printing's Impact on Manufacturing and Distribution

3D Printing's Impact on Healthcare

3D Printing's Impact on Logistics and Supply Chain Management

Jack can also custom craft this presentation for technology solution providers and professional services organizations such as CPA and law firms. These customized programs can be delivered in-house to employees or to clients and prospects at customer conferences and marketing events.

Jack integrates his executive experience in Industry, technology, and consulting to speak on Innovation, Change Management, and Transformational Leadership. And, he brings decades of experience designing, developing, and implementing emerging technologies to speak with a deep understanding of such current leading-edge technologies as Artificial Intelligence, Blockchain, 5G, and the Internet of Things and how these will impact business and society.

Jack Shaw is an Innovation and Change Management Strategist with more than 30 years' experience helping leaders transform their organizations' digital ecosystems amid new waves of technology. A Global Thought Leader, he was voted one of the World's Top 25 Speakers and one of the Top Five Technology Futurists in polls conducted by Speaking.com.

Having a sensible, practical approach to how tomorrow's new technologies will drive change and spur innovation, Jack has advised key decision-makers at such Fortune 500 organizations as Mercedes Benz, GE, Coca-Cola, IBM, Bosch, Oracle, and SAP.

Jack has delivered over 1,000 keynote discussions and executive forums in 26 countries and every state across the U.S. He is a Yale University graduate, and he holds a Kellogg MBA degree specializing in Finance and Marketing.
