

JACK SHAW

INNOVATION, TECHNOLOGY, & DISRUPTIVE CHANGE

OPENING MINDS TO WHAT'S NEXT

An Innovation and Change Strategist, Jack Shaw has over 30 years' experience helping leaders transform their organizations amid new waves of technology. A Global Thought Leader, he was voted one of the World's Top 25 Speakers and one of the Top 5 Technology Futurists in polls conducted by Speaking.com.

As the world recovers from the COVID Pandemic, businesses are having to rethink their business models, processes, and technologies in light of on-going disruptions –not just the pandemic, but Climate Change, Geopolitical disturbances, and the impacts of emerging technologies. Jack has a practical approach to how new technologies will drive change, spur innovation, and allow organizations to foresee and plan for disruptive change. He has spoken for dozens of associations as well as such Fortune 500 organizations as Mercedes Benz, Bosch, GE, Coca-Cola, IBM, Oracle, and SAP.

Jack integrates his executive experience in industry, technology, and consulting to speak on Innovation, Change Management, and Transformational Leadership. His decades of experience designing, developing, and implementing emerging technologies allow him to clearly explain such leading-edge technologies as AI, Blockchain, 5G, and the Internet of Things.

Jack has delivered over 1,000 keynote presentations and executive forums to over 300,000 top leaders and professionals in 26 countries and every state across the U.S. He has also spoken remotely for over 20 years and is experienced with a wide variety of virtual platforms. He is a Yale University graduate, with a Kellogg MBA in Finance and Marketing.

"Jack's presentation was very well received by the customers and prospects.

Thanks for knocking it out of the ballpark!"

– Karen Sage, CMO, MercuryGate International

"I recommend Jack as a speaker for any conference that wants to hear from a true visionary. Thanks again for being the highlights of your conference!"

– Brad Balance, Managing Director, Airlines for America

He is highly-regarded for his expertise in technology-enabled innovation and creating disruptive change, speaking on:

Innovation
Change Management
Transformational Leadership
Artificial Intelligence
Blockchain
5G / Internet of Things

KEY TOPICS

INNOVATION, TECHNOLOGY, AND THE POST-PANDEMIC FUTURE

As the world recovers from the COVID Pandemic, businesses are asking:

- What are the new kinds of business models needed to succeed in the post-pandemic world?
- How will you need to design your business processes to leverage remote collaboration, machine learning/AI, Blockchain, 5G/IoT, and other incipient technologies?
- And what does strategic planning even mean when unanticipated disruptions can stand the world on its head in a matter of weeks?

In this program, Jack Shaw shares detailed scenarios demonstrating how Digital Transformation will enable the kinds of radical innovations needed to anticipate and manage disruptive changes – not just the Pandemic, but Climate Change, geopolitical disturbances, and the impacts of emerging technologies. And he'll describe Dynamic Transformational Planning, a proven methodology to maintain current operations and manage current and potential disruptions while still achieving long-term strategic objectives.

EXTRACTING REAL VALUE FROM ARTIFICIAL INTELLIGENCE

AI is transforming business, society, and the world. Jack shares real-world examples of how cutting-edge businesses' AI implementations reduce costs, improve service, and spark innovation.

THE BLOCKCHAIN TRANSFORMATION

How the trust and security of blockchain-enabled digital transformation will evolve your business, your industry, and the world.

5G & IoT: THE INTERNET OF EVERYTHING

From connected cars to smart cities, remote robotic surgery, and self-configuring factory floors, 5G and IoT will deeply disrupt your business and your industry.
