JACK SHAW

INNOVATION, TECHNOLOGY, & THE FUTURE

OPENING MINDS TO WHAT'S NEXT

Around the world, organizations are rethinking their business models, processes, and technologies in light of on-going disruptions – not just the COVID pandemic, but the war in Ukraine, Climate Change, and the impacts of emerging technologies. Innovation and Technology Strategist, Jack Shaw has a practical approach to how emerging technologies will spur innovation and allow organizations to foresee, plan for, and manage disruptive change.

Jack has decades of experience helping leaders leverage new technologies to transform their organizations. He integrates his executive experience in industry, technology, and consulting to speak on Innovation, Technology, and the Future. His experience designing, developing, and implementing emerging technologies enables him to explain leading-edge concepts and technologies such as AI, Blockchain, 5G, the Internet of Things, and the Metaverse in easily understood terms. He has spoken on Blockchain nearly 100 times in a dozen countries since 2014.

A Global Thought Leader, he was voted one of the World's Top 25 Speakers and one of the Top 5 Technology Futurists in polls conducted by Speaking.com. He has spoken for dozens of associations as well as such Fortune 500 organizations as Mercedes Benz, Bosch, GE, Coca-Cola, IBM, Oracle, and SAP.

Jack has presented over 1,000 keynotes and executive forums to over 300,000 top leaders and professionals in 26 countries and every U.S. state. He has also spoken remotely for over 20 years and is experienced with a wide variety of virtual platforms. He is a Yale University graduate, with a Kellogg MBA in Finance and Marketing.

"Jack's presentation was very well received by the customers and prospects. Thanks for knocking it out of the ballpark!"
— **Karen Sage, CMO, MercuryGate**

"I recommend Jack as a speaker for any conference that wants to hear from a true visionary. Thanks again for being the highlight of our conference!"

Highly-regarded for his expertise in technology-enabled innovation and creating disruptive change, Jack speaks on:

- ☑ **Innovation**
- ☑ **Artificial Intelligence**
- ☑ **Blockchain**
- ☑ **5G / Internet of Things**
- ☑ **Metaverse**
- ☑ **Digital Transformation**

KEY TOPICS

BLOCKCHAIN IN THE ENTERPRISE

Blockchain technologies are redefining business models and processes in every industry: manufacturing, distribution, retail, healthcare, energy, transportation, and governmental agencies. Jack describes how your organization can benefit too.

BITCOIN, CRYPTOCURRENCY, & DeFi

Discover how crypto and Central Bank Digital Currencies (CBDC's) are changing the landscape for payments and financial services, and how decentralized finance (DeFi) will disrupt everything from borrowing and lending to securities trading and insurance.

EXTRACTING REAL VALUE FROM ARTIFICIAL INTELLIGENCE

AI is transforming business, society, and the world. Jack shares real-world examples of how leading businesses are using AI to reduce costs, improve service, and spark innovation.

5G & IoT: THE INTERNET OF EVERYTHING

From connected cars to smart cities, remote robotic surgery, and self-configuring factory floors, 5G and IoT are about to deeply disrupt your business and your industry. Jack shows you how to design your 5G/IoT strategy for competitive advantage.

THE METAVERSE:
WHAT DOES IT MEAN FOR ME AND MY ORGANIZATION?

How Extended Reality, AI, and Blockchain are creating a new paradigm for business and society. Learn about NFT's and DAO's. And see how they'll integrate to create highly immersive, virtual experiences that transform how we interact and do business.
